

# AK National Index

---

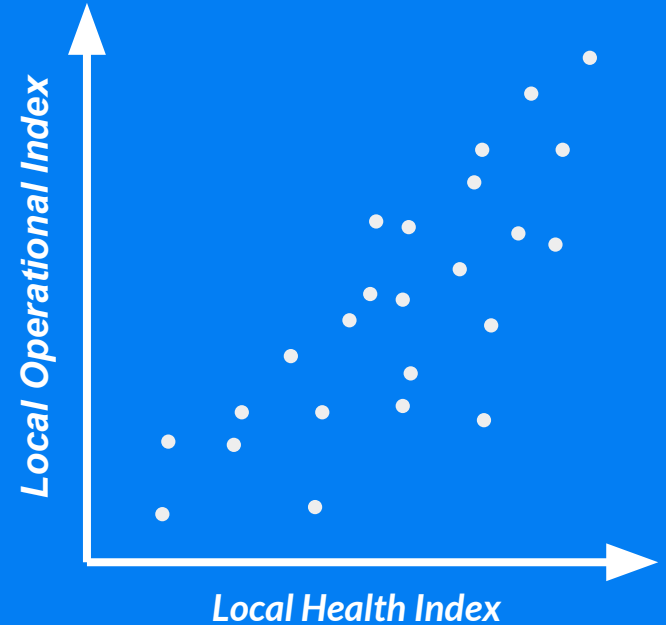

*What is it and how does it connect with the OD Model?*

# AIESEC KOREA NATIONAL INDEX

The AIESEC Korea National Index is the framework on how we Diagnose, Group, and determine the Support that LCs need in order for entities at the local level to become

**Better, Faster, Sustainable**

# Local Operational Index

Using past performance data, we determine what is the current operational performance of each of the LCs within each program

Total			OGV		
Planned 2017	Actual 2017	% Achieved	Planned 2017	Actual 2017	% Achieved
19	10	52.63%	15	8	53.33%
36	32	88.89%	10	16	160.00%
59	27	45.76%	26	4	15.38%
18	11	61.11%	6	2	33.33%
24	10	41.67%	11	4	36.36%
53	12	22.64%	30	4	13.33%
27	2	7.41%	20	2	10.00%
46	7	15.22%	40	7	17.50%
26	4	15.38%	18	1	5.56%
12	12	100.00%	8	8	100.00%
41	14	34.15%	20	2	10.00%
33	4	12.12%	25	3	12.00%
20	19	95.00%	8	3	37.50%
101	27	26.73%	50	10	20.00%
128	35	27.34%	100	20	20.00%
51	17	33.33%	19	3	15.79%
22	6	27.27%	12	1	8.33%
27	6	22.22%	15	2	13.33%
64	30	46.88%	36	13	36.11%
807	285	35.32%	469	113	24.09%

# Local Health Index

Using criteria on Membership, Performance, and Financial Health, we can determine what is the current status of organizational health within each LC

\*more accurate measures were unable to be used during this time due to the data being previously unmeasured\*

## Membership

Membership Retention

% of members productive

## Performance

% goal achievement

Process time

Conversion Rate

## Finance

% LC profitability

% Revenue from Exchange
